Subject: Discussion Items for Area 1 FS call today

Based on our earlier discussion today:

1. Area 1 Sediment remediation alternatives¹

- No Action
- MNR and ICs/ECs
- Removal, MNR, ICs/ECs
 - Hot spots in Sections 2, 3 and 4; confluence area in Section 3, remedial design sampling (Section 8 Plainwell TCRA Area)
 - Hot spots in Sections 2 and 4; outer edges of channel in Section 3; confluence area in Section 3 (portions not already in the ~~side~~ channel edges or Portage Creek RA); remedial design sampling (Section 8 Plainwell TCRA Area)
- Capping (Crown Vantage side channel), MNR, ICs/ECs

¹ Action alternatives include long term monitoring and bank erosion monitoring, assumes completion of Portage Creek RA by EPA in 2014

2. Logistics for Submittal of FS

- Electronic
- Number of hard copies
- Appendix (hard copies vs. DVD)

3. Executive Summary/FS Response to Comments

Cynthia Draper | Project Manager/Associate Engineer
